

Discovering Montessori Elementary...

The Montessori Children's Academy
Elementary
PROGRAM

Short Hills Campus

200 Hartshorn Drive, Short Hills, NJ

7:00PM – 8:00PM, Thursday, December 7, 2017

In *Primary*, students begin to discover the possibilities in the universe.

In *Elementary*, they discover the possibilities within themselves.

In *Middle School*, they begin to realize what these possibilities, combined, can do.

Join us at our Elementary Open House to learn how we guide your children through the discovery of who they are, into the realization of who they can become, as they grow into the innovators of their own futures.

The evening will include:

- An introduction to our program and our talented staff who lead it.
- A question and answer session.
- An opportunity for you to see and interact with some of the incredible materials the students use in their journey of discovery at MCA Elementary.

Please call 973-258-1400 to RSVP

Light refreshments and complimentary childcare will be provided.
